

Mason Community Comes Together to Celebrate New Frontera Clinic

Mason, TX – September 8, 2025 — Frontera Healthcare proudly welcomed the Mason community to celebrate the grand reopening of the newly renovated Mason Clinic with an Open House and Ribbon Cutting ceremony.

The event drew a heartwarming turnout of community members, partners, and friends, including Mason County Judge Sheree Hardin, representatives from Congressman August Pfluger's office, and Representatives from Wes Virdell's office. Guests enjoyed guided tours of the updated clinic and light refreshments, generously provided by the Riata Service Organization.

"This project is a testament to what can be accomplished when a community unites around a shared vision for health and well-being," said Mikki Hand, CEO of Frontera Healthcare. "We are deeply grateful to every individual, family, business, and organization who contributed to making this dream a reality."

The total cost of the renovation was \$1,916,355, coming in under the projected budget of \$2.1 million. Thanks to the incredible generosity of the Mason community, \$1,807,836 was raised—100% of which went directly to the project. This remarkable achievement reflects the deep commitment of local donors to ensuring high-quality healthcare remains accessible in Mason for generations to come.

Later that evening, Frontera hosted a donor appreciation dinner to honor the many individuals and organizations whose support powered the Mason Capital Campaign. The evening was filled with gratitude, stories of impact, and a shared sense of pride in what the community accomplished together.

Frontera Healthcare extends its heartfelt thanks to everyone who played a role in this milestone. Because of your support, patients in Mason now have access to care in a modernized, welcoming space designed to meet their needs today and into the future.
